First steps in Germany for students

Your perfect start

5 steps for a perfect start

There are only a few things that are absolutely indispensable when you're new in Germany as a student. This brochure walks you through them step by step and tells you where to go to get what you need.

Step 1:

Your health insurance

First of all you need to be registered with a German health insurance company. This is necessary because you will need valid health insurance for enrolment at university and for a visa from the "Ausländerbehörde" (foreigners' registration office). Our advice is to get in touch with your personal BARMER contact to make the application process as fast and as convenient as possible.

Step 2:

Your enrolment

Once you have registered with a German health insurance, you are allowed to enrol at university. It is essential to take out health insurance before enrolment. Without confirmation of membership, enrolment is not possible. Our confirmation of membership is accepted at all universities in Germany. On receipt of confirmation of enrolment, you will need to send it to your health insurance.

Step 3:

Appointment with the foreigners' authority

For non-EU citizens: For your appointment with the Ausländerbehörde you will need confirmation of enrolment and confirmation of health insurance.

Step 4:

Your social security number

Maybe you are considering a side job during university? The HR office of your company will need a German social security number. It is important in order for you to get paid! BARMER will apply for that number on your behalf within a few days.

Step 5:

Your bank account

Last but not least, if you don't have a European bank account, it's advantageous to find a bank in Germany without fees.
